**TRAIN** as though your life depends on it. Some people learn by hearing, some by seeing. Most people learn best by doing.

- According to the U.S. Department of Homeland Security, fire is the most common of all business disasters.
- The National Fire Sprinkler Association states that roughly every 1.5 seconds, a fire occurs inside the United States.
- OSHA 1910.157 states that "Where the employer provides a portable fire extinguisher, they shall also provide annual training".

Halcyon Products Inc. provides innovative products for the fire and EMS services as well as law enforcement markets. The Burn Pan is one of the innovative products that is used to train individuals on fire extinguisher use, so that they can prepare for and prevent fires from getting out of control.

The Burn Pan is a propane unit used for fire extinguisher training. It is simple to use, inexpensive, clean burning, and easy to clean. There are no hazardous materials that require disposal.

## **TRAIN. PREPARE. PREVENT.**

**PREPARE** for the worst, and hope for the best. According to the U.S. Department of Homeland Security, how quickly your company can get back to business after an incident depends on emergency planning done today. Start planning now to improve the likelihood that your company will survive and recover. Visit these websites for more information: [www.ready.gov](http://www.ready.gov) or The American Red Cross at [www.redcross.org](http://www.redcross.org).
