
The logo features a stylized flame icon on the left, containing a black arrow pointing upwards. To the right of the icon, the word "FIREGROUND" is written in orange, bold, uppercase letters. Below "FIREGROUND", the word "COMPASS" is written in large, bold, black, uppercase letters, followed by a trademark symbol (TM). Underneath "COMPASS", the text "BY HALCYON PRODUCTS, INC" is written in a smaller, black, uppercase font.

FIREGROUND
COMPASSTM
BY HALCYON PRODUCTS, INC

OVERVIEW

Innovative products that serve the fire, EMS and law enforcement services markets

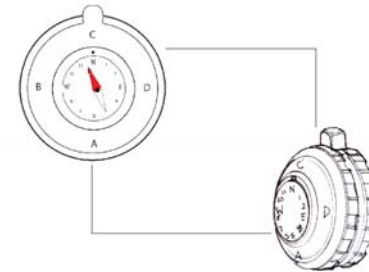

halcyonTM
PRODUCTS
Tradition starts now.

Product Description

- The **Fireground Compass®** is a self extraction tool for disoriented firefighters.
- The Product operation combines a compass with rotating bezels. The first bezel is square in shape depicting the incident building. The second shows the position of interest, ex: command post, exits/points of entry.

**FIREGROUND
COMPASS™**
BY HALCYON PRODUCTS, INC.

Concept 3 - In this the compass is placed right on top of the bezel.

halcyon.

Product Features & Selling Points

➤ **FEATURE:** Lighting.

SELLING POINT: All building points of the **Fireground Compass®** are illuminated with LED lights. This allows firefighters to operate the compass in dark or smoky environments.

➤ **FEATURE:** Durable.

SELLING POINT: The **Fireground Compass®** is constructed with Zytel®, a super tough, high performance plastic. This material is heat resistant, chemical resistance, withstands high impact and ultra tough.

Product Features & Selling Points

➤ **FEATURE:** Low Tech.

SELLING POINT: The **Fireground Compass®** is a compass incorporated into a working device. The unit's gadgetry has very few glitches or failing points giving firefighters a tool they can depend on.

➤ **FEATURE:** Economical.

SELLING POINT: The **Fireground Compass®** is a one hundred dollar life saving product. Most equipment in the fire service is over \$100. (Example: flashlights price points \$50-\$200.)

FAQ

- What temperature can the **Fireground Compass®** withstand?
 - Melt temperature range of Zytel® is 305°C/580°F. Units were dry and wet tested at 500°F for 5-10 minutes. Test results were successful.
- How much does the **Fireground Compass®** weight?
 - 8.8 oz.
- How big is the **Fireground Compass®** ?
 - Height: 1 ⁷/₈ ". Width: 4 ³/₄". Ideal for use with gloved hands.
- What is the battery life? – Can users replace them?
 - Battery life is excellent if used intermittently. If left on, it should last about 2 weeks. Size battery – Yes, coin 3 volt battery (Energizer CR2450).

FAQ

- What is the durability and impact resistance of the **Fireground Compass®** ?
 - During testing the **Fireground Compass®** withstood 3-10 foot drops. The main concern in impact is the inner circuit board. But the circuit board is not critical to operating the unit.
- Do I need to hold the **Fireground Compass®** a certain way?
 - Yes. Units must be held level if possible. Drag begins to occur at 15° and beyond.
- What disrupts the **Fireground Compass®** from working?
 - The **Fireground Compass®** has limitations like any product. As a rule of thumb, hold the **Fireground Compass®** 1-5ft away from interfering factors. Understanding proximity confines of the product is important when using the **Fireground Compass®**. Factors: metal, radio, etc. (hold away from those factors)

FAQ

- What is the return policy for the **Fireground Compass®**?
 - A full refund will be issued for products that are returned unopened within 30 days.
 - After 90 days, no refunds will be provided.
 - When returning a product, the shipping cost is the responsibility of the customer or distributor.
- What is the product warranty for the **Fireground Compass®**?
 - The product warranty for the **Fireground Compass®** is 90 days.
 - Where can I carry the **Fireground Compass®** ?
 - The **Fireground Compass®** fits perfect in the pocket of a firefighter's turn-out gear.
