

Mobile Command Post™

Take control with you.

The *Mobile Command Post* is a light weight, durable, and portable 'on-scene office' for the commander of an emergency situation.

Features

- *Magnetic whiteboard* for easy diagramming of the situation and for the formation of the 'attack' plan.
- *Large desk surface* with enough room for a laptop computer and work papers.
- *Large water-resistant compartment* for storing files, communications equipment and other emergency field items.
- *Integrated wheel assembly and retractable handle* for superb mobility.
- *Light-weight and compact design.*
- *Detachable stand*, easy to set-up and tear down.
- *A lighting system* for low ambient light or nighttime operations.

Also ideal for coaches of soccer, football, baseball, basketball, and other indoor or outdoor sports.

Mobile Command Post™

Take control with you.

Customer Testimonial

"What I like about the Mobile Command Post is that it carries a lot of documents and equipment without having them scattered about the vehicle."

"The Mobile Command Post is very sturdy. The unit has fallen out of my vehicle and the unit was unaffected."

"The thing about the Mobile Command Post is having a desktop and work surface in the field. I recommend it!"

Command Pak

The *Command Pak* accompanies the *Mobile Command Post* as an option and includes the following items:

- A *laminated tactical command sheet* that provides command organizational diagrams and a checklist for large and small-scale emergency situations. These sheets comply with the NIMS (National Integrated Management System) guidelines.
- *Command post flag* which mounts to the Mobile Command Post. The flag identifies the tactical command position to others within the area.
- A set of *tactical situation magnets* identifying emergency teams and other important on-scene items.
- *Incident commander vest* to identify the commander of the situation.
- *Command markers* to be use specifically with the Mobile Command Post whiteboard.

Product Specifications

- Wheels are mounted directly to the frame.
- Unit can be rolled similar to a suitcase using the attached integral handle
- Legs fold up and come with a storage pouch.
- Legs can be an optional.
- Dimensions 24-9/16" in length, 19-5/16" in width and 11-15/16" in deep.
